NEW YORK, Aug. 18. 're... West is. I fear, again doomed to disap pointment as to appropriations for rivers and barbors, at the hand of a Loco Foco Senater. Gen! Cass is advocating a separate bill for the Canal round the Falls of St. Mary—which is to be a work wholly in the State of Michigan, and therefore secures the voice of its Senator. Now, certainly, ment-and, in every sense, is of national moment and it ought to be made; but for that very reason clear, it ought to be in a general bill for like objects—part of a general system—to be advocated and maintained upon general grounds, and for the general good-each part helping the others, and

But Mr. Cass adopts a different course. He goes for it as a Michigan work, and having obtained that boon for his own State, he will most probably find excuse for not attending to like claims from other States, and all the States.

Even this bill, too, is a half-way sort of measuse. Instead of authorizing the immediate construction of the Canal by the U. S., and at the remenal cost, it simply sets apart some hundreds of themsands of acres of land in aid of the enterpriso-and there are Constitutional reliners and abstractionists enough in the South to find it according to conscience to give land-but not to give money-se though the land be not saleable for

beguile the West by an apparent friendship for internal improvements-by adopting one of the worst and most mischievous heresies of the originst opponents of the Federal Constitution—that rizing separate States to levy duties on their harbors for the improvement thereof. This is going back to the old Confederation—from the erils of which, after being almost ruined by them, the nation was rescued by our present Constitu-tion. Under the old form, New York levied her duties -- Massachusetta hers -- Rhodo Island hers, and South Carolina hers-each in its own harbors -paying over reluctantly to the U. S., such quota was required for the common purposes. It was to get rid of this vicious system of separate, and varying, and often conflicting duties, that the Constitution we live and flourish under was resorted to; and that Constitution vests in Congress exclugive nower, and renders it a solemn duty, to take care of Commerce with foreign nations and between the States, and to pass all laws necessary

Accordingly the U.S. government levies large duties upon commerce and upon tonnage—and, in common honesty, therefore, is bound to expend such portions of that money as the needs of commerce and tonuage, both inland and foreign, require, without again subjecting any part of that tounage to state exactions for the performance o duties which belong to Congress.

I look upon the attempt to divorce the general government from the duty of harbor and rive inprovement, by throwing it again upon the accurate states thro' state imports upon tonnage as the very worst form of enmity to the genera cruse of Harbors and Rivers. It is in the very spirit too, of the Southern Disunionists, who re-joice at every act of legislation which magnifies the state and impairs the Federal supremacy. It would, if adopted on the Lakes, or on the Missisoppi, the waters of which are common to many States, introduce the annoyances and the coils of the separate taxation of the several petty sovereignties which border on the Scheldt or the Rhine in Europe, and which render those thoroughfores means of extortion and mutual retalistion in wrong. Touch not the unclean thing ! he fought on, and fought on its own strength and the end : but suffer no present palliative to direct you from the one and only remedy-a system of tion, and at the cost of the general government. Judge Larabee's Resignation.

The Madison Democrat takes it in high dudgon, that we should ask for the publication of unge Larance's resignation, after that responsible and reliable paper positively stated that such were assured upon good authority, that Judge LARABEE had not resigned, two days after the Demecrat asserted that he had! The Donocrat now ivers that it has seen the document in the Execuive Department. Why not let the public see it,

By way of rebuking our curjosity in the premses, our Madison contemporay adds : ises, our manison contemporary acus:

"If Judge Larabes were as pure as an angelaud had the judicial talent of Massuall or Storyho would not have the support of the Scatinel, because ho is neither a whig, nor a member of the
'Jenny Lind Club.'

What the Sentinel raight do in the case supposed, we can't say; the hypothesis being so im-probable a one, as to be difficult to realize. But ssuredly, the Sentinel expects to, and will support very cheerfully, candidates for the Supreme Court who are neither "whigs," nor members of the "Jenny Lind Club," provided only, they are onest, competent, and experienced.

leave the public to judge between them. The Volksfreund further denies that it countenanced the blackguard attacks upon Mr. Roeslea from a ertain shop in the 2d Ward. Here is what the Volksfraund of August 19, amongst much other untranslatable billingsgate, said on this point:-"The Scott Harlequin says he is whistled at by some loafer boys, pretending to be men, whenever he is passing a certain tailor shop in the 2d Ward. We advise Mr. R. to behave like a man, and renounce his boy-loaferism, and then the loafer-hove will not join him. This matter only regards Mr. R. and his loafer friends, and is by no neans important enough to be brought before the oublie."

Our readers will readily judge from the above how much truth there is in the Volksfraund's denials, and how much decency in its asseults upon a fellow countryman and brother editor.

THOSE "VOTES FOR THE WEST."-The Morning News is very angry with us for publishing the Yeas and Nays in Congress on questions con-nected with the River and Harbor Bill, and thinks it exceedingly "mean to insinuate" that the Whigs who vote as the West would have them vote, on these questions, are friendly to Western interests, and the Democrats vice versa. Now if the News don't like our votes and inforences, suppose it favors us with some of its own. We dout emember to have seen yet a single vote in either House, on Internal Improvement bills, published n the News. The truth is, it dare not publish these votes ! They prove too clearly, what the Whig papers assert, that Pierce democracy is uncompromisingly hostile to all Internal Improvements by the General Government.

THE WHIG FIRES BURNING !- The Scott Volinteers turned out in large numbers on Saturday evening, at their Head Quarters, to take counsel together. The large room was well filled at an early hour, and the most enthusiastic feeling exhibited. Addresses were given, right to the point, by Messie, Austin, Orton, Dann, Smith, and others, their remarks being frequently interrupted by hearty applause. The memory of good old times was brought back, and a foretaste of the good imo coming furnished, by the Glee Club. We shall have to take the open air to it, if the number present at the meetings increase in like ratio the ext week. "Things is working!"

Mr. WRIGHT was not present, there having been misunderstanding as to the evening on which he was to be present. He will be on hand next Saturday.

Resolved, That the Harbor bill, now before Con-trees meets the hearty approbation of this Congress, meets the hearty approbation of this Convention. That the Democracy of Michigan have witnessed, with deep regret, the course of Whig Senators and Members of Congress, in efforts to defeat the passage of said bill.

It must make the ears of the honest men of the selfstyled "democratic" party in Michigan tingle to hear of such miserable falsehoods gravely sent forth among their people by a state Convention Do the authors of them suppose that the people never see the vorus on the River and Harbor Bill?

The Judicial Convention.

We republish this morning the call for the election of Delegates to the Independent Judicial Convention, which is to be held at Madison on Wednesday of next week, September 1st. The call has been favorably responded to from all quarters of the State, and we doubt not that Delegates will be in attendance from most of the e carried without the most thorough organiza- counties. The meetings to select Delegates are to tion, and systematized, united, persevering effort.

For all this scarce has months remain. What is to be done, must be done within that brief space pendent Judiciary, in every assembly District of near? Are they alive and awake to the conviction that the next eight needs determine the political complexion of our affairs for the next four lyears? Have they begun to make ready in carateristics of the next four in the selection of the new ticker. the State, that if they have not already taken st for the great fight of November 2d 1852?

If not, it is high time they did. Indeed, there fested to the Party ticket can be united upon a

new and unexceptionable nomination.

The Janesville Gazette, we observe, amicipates Janesville. We cannot discover any good ground good ticket. So too, we doubt not, will the Delegate Convention at Madison, and should the two nominations differ at all, a committee of Conference, appointed by each Convention with the necessary authority, can easily reconcile this differ-ence and unite and harmonize their councils and all parts of the State are more likely to be fairly represented in the former than in the latter, but both have their uses in developing and concentrating public sentiment. PRUSSIAN POLICE.-Our fellow-citizen HENRY BEBLINER, of the firm of BEBLINER & BRUNO, returned on Saturday from a four months' business visit to the Continent. He tells us that Mr. CHARLES GEISBERG, of this city, whom he met in Berlin on the 25th of last month, narrowly escaped imprisonment as a suspicious character. It seems that Mr. Geisberge's name was spelt Gisberg in his passport, which strong circumstance was regarded by the authorities as warranting his arrest. He was accordingly waited upon by a high Commissioner at 31g o'clock in the morning, put under strict surveillance, his papers seized, his nggage closely searched, and finally the reasonable requirement made that he should prove him-self to be CHARLES GEISBERG and not Charles Gistery, as his passport styled him! Fortunately Mr. GRISZERG had met Mr. BERTINER that very day and immediately named him as a witness who could prove his identity. Baltimore, Wednesday, Aug. 16, 1852. FURTHER FROM THE ATLANTIC.

We copy from the Buikho Commercial of Saturday last, some further details of the Lake Erie disaster. The attention of the reader is especially livited to the testimony of the two Mates. It effectually disposes of the pretext that the collision was owing to the "dense fog," since both awear that each steamer was visible from the other some minutes before the crush came. There remains no doubt, therefore, that the accident was the result of eriminal carelessness, and that the disaster was aggravated by the lack of judgment, designing and discipling on the ratt of the officers.

JUDGE LARABER'S RESIGNATION.—The Janesrille Gazette thus confirms what we say elsewhere in regard to the Madison Democrat's assertion that udge Larabre had resigned:

The Democrat, we have most undoubted reasons to believe, was either premature in its announcement, or altogether mistaken in its assertion. The announcement of the resignation of Judge Larabee was made in the Democrat, published Friday afternoon, the 18th, whereas Judge Larabee was in this village on the evening of that day, and did not hesitate to state that he had not resigned, and could not do so at this time with a due regard to the rights of autors in his court.
